

# 1502

**FIRE SAFETY PLAN  
PART I - BUILDING INFORMATION SECTION**

**BUILDING ADDRESS:** 405 WEST 23RD STREET, NEW YORK, NY 10011

**BUILDING OWNER/REPRESENTATIVE:**

Name: Douglas Elliman Property Management  
Address: 675 Third Avenue, New York, NY 10017  
Telephone: (212) 370-9200

**BUILDING INFORMATION:**

Year of Construction: 1930  
Type of Construction: NON-COMBUSTIBLE

Number of Floors:  
Above Ground 19  
Below Ground 1

Sprinkler System: YES                      Sprinkler System Coverage: PARTIAL (COMPACTOR ROOM, BASEMENT, COMM STG.)  
Fire Alarm: No                                Location of Manual Pull Stations: N/A  
Public Address System: No                Location of Speakers: N/A

**Means of Egress:** (e.g., Unenclosed/Enclosed Interior Stairs, Exterior Stairs, Fire Tower Stairs, Fire Escapes, Exits):

Type of Egress	Identification	Location	Leads To:
ENCLOSED INTERIOR STAIRWELL	A	SIDE OF ELEVATOR	PH LEVEL & LOBBY
ENCLOSED INTERIOR STAIRWELL	B	18FT BEHIND LOBBY DESK	ROOF & BASEMENT

Other Information:  
1-6 STANDPIPE IN "A" STAIRWELL FED BY A 17,500 GAL ROOF TANK

DATE PREPARED: January 01, 2007

**IN THE EVENT OF A FIRE, Call 911 OR**  
**The Fire Department Dispatcher, in Manhattan 212-999-2222**  
**Or transmit an Alarm from the nearest FIRE ALARM BOX**

**FIRE SAFETY PLAN**  
**PART II - FIRE EMERGENCY INFORMATION**

**BUILDING ADDRESS:** 405 WEST 23RD STREET, NEW YORK, NY 10011

**THIS FIRE SAFETY PLAN IS INTENDED TO HELP YOU AND THE MEMBERS OF YOUR HOUSEHOLD PROTECT YOURSELVES IN THE EVENT OF FIRE. FIRESAFETY PLAN CONTAINS:**

- ❖ Basic fire prevention and fire preparedness measures that will reduce the risk of fire and maximize your safety in the event of a fire.
- ❖ Basic information about your building, including the type of construction, the different ways of exiting the building, and the types of fire safety systems it may have.
- ❖ Emergency fire safety and evacuation instructions in the event of fire in your building.

**PLEASE TAKE THE TIME TO READ THIS FIRE SAFETY PLAN AND TO DISCUSS IT WITH THE MEMBERS OF YOUR HOUSEHOLD. FIRE PREVENTION, PREPAREDNESS, AND AWARENESS CAN SAVE YOUR LIFE!**

**IN THE EVENT OF A FIRE**

**CALL 911**

**OR THE FIRE DEPARTMENT DISPATCHER, AT**

## **BASIC FIRE PREVENTION AND FIRE PREPAREDNESS MEASURES**

These are fire safety tips that everybody should follow:

1. Every apartment should be equipped with at least one smoke detector. Check them periodically to make sure they work. Most smoke detectors can be tested by pressing the test button. Replace the batteries in the spring and fall when you move your clocks forward or back an hour, and whenever a smoke detector chirps to signal that its battery is low. The smoke detector should be replaced on a regular basis in accordance with the manufacturer's recommendation, but at least once every ten years.
2. Carelessly handled or discarded cigarettes are the leading cause of fire deaths. Never smoke in bed or when you are drowsy, and be especially careful when smoking on a sofa. Be sure that you completely extinguish every cigarette in an ashtray that is deep and won't tip over. Never leave a lit or smoldering cigarette on furniture.
3. Matches and lighters can be deadly in the hands of children. Store them out of reach of children and teach them about the danger of fire.
4. Do not leave cooking unattended. Keep stovetops clean and free of items that can catch on fire. Before you go to bed, check your kitchen to ensure that your oven is off and any coffeepot or teapot is unplugged.
5. Never overload electrical outlets. Replace any electrical cord that is cracked or frayed. Never run extension cords under rugs. Use only power strips with circuit breakers.
6. Keep all doorways and windows leading to fire escapes free of obstructions, and report to the owner any obstructions or accumulations of rubbish in the hallways, stairwells, fire escapes or other means of egress.
7. Install window gates only if it is absolutely necessary for security reasons. Install only approved window gates. Do not install window gates with key locks. A delay in finding or using the key could cost lives. Maintain the window gate's opening device so it operates smoothly. Familiarize yourself and the members of your household with the operation of the window gate.
8. Familiarize yourself and members of your household with the location of all stairwells, fire escapes and other means of egress.
9. With the members of your household, prepare an emergency escape route to use in the event of a fire in the building. Choose a meeting place a safe distance from your building where you should all meet in case you get separated during a fire.
10. Exercise care in the use and placement of fresh cut decorative greens, such as Christmas trees and holiday wreaths. If possible, keep them planted or in water. Do not place them in public hallways or where they might block egress from your apartment if they catch on fire. Keep them away from any flame, including fireplaces. Do not keep for extended period of time; as they dry, decorative greens become easily combustible.

## BUILDING INFORMATION

### Building Construction

In a fire emergency, the decision to leave or to stay in your apartment will depend in part on the type of building you are in.

Residential buildings built before 1968 are generally classified either as "fireproof" or "non-fireproof." Residential buildings built in or after 1968 are generally classified either as "combustible" or "non-combustible." The type of building construction generally depends on the size and height of the building.

A "non-combustible" or fireproof building is a building whose structural components (the supporting elements of the building, such as steel or reinforced concrete beams and floors) are constructed of materials that do not burn or are resistant to the spread of the fire. In such buildings, fires are more likely to be contained in the apartment or in space in which they start and less likely to spread inside the building walls to other apartments and floors. **THIS DOES NOT MEAN THAT THE BUILDING IS IMMUNE TO FIRE.** While the structural components of the building may not catch fire, all of the contents of the building (including furniture, carpeting, wood floors, decorations and personal belongings) may catch on fire and generate flame, heat and large amounts of smoke, which can travel throughout the building, especially if apartment or stairwell doors are left open.

A "combustible" or "non-fireproof" building has structural components (such as wood) that will burn if exposed to fire and can contribute to the spread of fire. In such buildings, the fire can spread inside the building walls to other apartments and floors, in addition to the flame, heat and smoke that can be generated by the burning of the contents of the building.

**Be sure to check Part I (Building Information Section) of this fire safety plan to see what type of building you are in.**

### Means of Egress

All residential buildings have at least one means of egress (way of exiting the building), and most have at least two. There are several different types of egress:

**Interior Stairs:** All buildings have stairs leading to the street level. These stairs may be enclosed or unenclosed. Unenclosed stairwells (stairs that are not separated from the hallways by walls and doors) do not prevent the spread of flame, heat and smoke. Since flame, heat and smoke generally rise, unenclosed stairwells may not ensure safe egress in the event of a fire on a lower floor. Enclosed stairs are more likely to permit safe egress from the building, if the doors are kept closed. It is important to get familiar with the means of egress available in your building.

**Exterior Stairs:** Some buildings provide access to the apartment by means of stairs and corridors that are outdoors. The fact that they are outdoors and do not trap heat and smoke enhances their safety in the event of a fire, provided that they are not obstructed.

**Fire Tower Stairs:** These are generally enclosed stairwells in a "tower" separated from the building by airshafts open to the outside. The open airshafts allow heat and smoke to escape from the building.

**Fire Escapes:** Many older buildings are equipped with a fire escape on the outside of the building, which is accessed through a window or balcony. Fire escapes are considered a "secondary" or

alternative means of egress, and are to be used if the primary means of egress (stairwells) cannot be safely used to exit the building because they are obstructed by flame, heat or smoke.

**Exits:** Most buildings have more than one exit. In addition to the main entrance to the building, there may be separate side exits, rear exits, basement exits, roof exits and exits to the street from stairwells. Some of these exits may have alarms. Not all of these exits may lead to the street. Roof exits may or may not allow access to adjoining buildings.

**Be sure to review Part I (Building Information Section) of this fire safety plan and familiarize yourself with the different means of egress from your building.**

### Fire Sprinkler Systems

A fire sprinkler system is a system of pipes and sprinkler heads that when triggered by the heat of a fire automatically discharges water that extinguishes the fire. The sprinkler system will continue to discharge water until it is turned off. When a sprinkler system activates, an alarm is sounded.

**Be sure to review Part I (Building Information Section) of this fire safety plan to learn whether your building is equipped with fire sprinkler systems.**

### Interior Fire Alarm Systems

Although generally not required, some residential buildings are equipped with interior fire alarm systems that are designed to warn building occupants of a fire in the building. Interior fire alarm systems generally consist of a panel located in a lobby or basement, with manual pull stations located near the main entrance and by each stairwell door. Interior fire alarm systems are usually manually activated (must be pulled by hand) and do not automatically transmit a signal to the Fire Department dispatcher. Do not assume that the Fire Department has been notified because you hear a fire alarm or smoke detector sounding in the building.

**Be sure to review part I (Building Information Section) of this safety plan to learn whether your building is equipped with an interior fire alarm system and whether the alarm is transmitted to the Fire Department, and familiarize yourself with the location of the manual pull stations and how to activate them in the event of a fire.**

### Public Address Systems

Although generally not required, some residential buildings are equipped with public address systems that enable voice communications from a central location, usually in the building lobby. Public address systems are different from the building intercoms, and usually consist of loudspeakers in building hallways and/or stairwells.

**Be sure to review part I (Building Information Section) of this safety plan to learn whether your building is equipped with a public address system.**

## **EMERGENCY FIRE SAFETY AND EVACUATION INSTRUCTIONS**

**IN THE EVENT OF A FIRE, FOLLOW THE DIRECTIONS OF FIRE DEPARTMENT PERSONNEL. HOWEVER, THERE MAY BE EMERGENCY SITUATIONS IN WHICH YOU MAY BE REQUIRED TO DECIDE ON A COURSE OF ACTION TO PROTECT YOURSELF AND THE OTHER MEMBERS OF YOUR HOUSEHOLD.**

**THIS FIRE SAFETY PLAN IS INTENDED TO ASSIST YOU IN SELECTING THE SAFEST COURSE OF ACTION IN SUCH AN EMERGENCY. PLEASE NOTE THAT NO FIRE SAFETY PLAN CAN ACCOUNT FOR ALL OF THE POSSIBLE FACTORS AND CHANGING CONDITIONS; YOU WILL HAVE TO DECIDE FOR YOURSELF WHAT IS THE SAFEST COURSE OF ACTION UNDER THE CIRCUMSTANCES**

### **General Emergency Fire Safety Instructions**

1. Stay calm. Do not panic. Notify the Fire Department as soon as possible. Firefighters will be on the scene within minutes.
2. Because flame, heat and smoke rise, generally a fire on a floor below your apartment presents a greater threat to your safety than a fire on a floor above your apartment.
3. Do not overestimate your ability to put out a fire. Most fires cannot be easily or safely extinguished. Do not attempt to put the fire out once it begins to quickly spread. If you attempt to put a fire out, make sure you have clear a path of retreat from the room.
4. If you decide to exit the building during a fire, close all doors as you exit to confine the fire. Never use the elevator. It could stop between floors or take you to where the fire is.
5. Heat, smoke and gases emitted by burning materials can quickly choke you. If you are caught in a heavy smoke condition, get down on the floor and crawl. Take short breaths, breathing through your nose.
6. If your clothes catch fire, don't run. Stop where you are, drop to the ground, cover your face with your hands to protect your face and lungs and roll over to smother the flames.

### **Evacuation Instructions If The Fire Is In Your Apartment (All Types of Building Construction)**

1. Close the door to the room where the fire is, and leave the apartment.
2. Make sure EVERYONE leaves the apartment with you.
3. Take your keys.
4. Close, but do not lock, the apartment door.
5. Alert people on your floor by knocking on their doors on your way to the exit.
6. Use the nearest stairwell to exit the building.
7. **DO NOT USE THE ELEVATOR.**

8. Call 911 once you reach a safe location. Do not assume the fire has been reported unless firefighters are on the scene.
9. Meet the members of your household at a predetermined location outside the building. Notify responding firefighters if anyone is unaccounted for.

### **Evacuation Instructions If The Fire Is Not In Your Apartment**

#### **“NON – COMBUSTIBLE” OR “ FIREPROOF” BUILDINGS:**

1. Stay inside your apartment and listen for instructions from firefighters unless conditions become dangerous.
2. If you must exit your apartment, first feel the apartment door and doorknob for heat. If they are not hot, open the door slightly and check the hallway for smoke, heat or fire.
3. If you can safely exit your apartment, follow the instructions above for a fire in your apartment.
4. If you cannot exit your apartment or building, call 911 and tell them your address, floor, apartment number and the number of people in your apartment.
5. Seal the doors to your apartment with wet towels or sheets, and seal air ducts or other openings where smoke may enter.
6. Open windows a few inches at the top and bottom unless flames and smoke are coming from below. Do not break any windows.
7. If conditions in the apartment appear life – threatening, open a window and wave a towel or sheet to attract the attention of firefighters.
8. If smoke conditions worsen before help arrives, get down on the floor and take short breaths through your nose. If possible, retreat to a balcony or terrace away from the source of the smoke, heat or fire.

#### **“COMBUSTIBLE” OR “NON – FIREPROOF” BUILDING**

1. Feel your apartment door and doorknob for heat. If they are not hot, open the door slightly and check the hallway for smoke, heat of fire.
2. Exit your apartment and building if you can safely do so, following the instructions above for a fire in your apartment.
3. If the hallway or stairwell is not safe because of smoke, heat or fire and you have access to a fire escape, use it to exit the building. Proceed cautiously on the fire escape and always carry or hold onto small children
4. If you cannot use the stairs or the fire escape, call 911 and tell them your address, apartment number and the number of people in your apartment.
  - A. Seal the doors to your apartment with wet towels or sheets, and seal air ducts or other openings where smoke may enter.

- B. Open windows a few inches at the top and bottom unless flames and smoke are coming from below. Do not break any windows.
- C. If conditions in the apartment appear life – threatening, open a window and wave a towel or sheet to attract the attention of firefighters.
- D. If smoke conditions worsen before help arrives, get down on the floor and take short breaths through your nose. If possible retreat to a balcony or terrace away from the source of the smoke, heat or fire.

RE: ADDITIONAL SALE REQUIREMENTS  
COOPERATIVE

### **LEAD-BASED PAINT DISCLOSURE INFORMATION**

Shareholders in buildings built prior to 1978 seeking to sell their shares and assign their proprietary leases or sublease their apartments must comply with certain regulations promulgated by the Environmental Protection Agency and the Department of Housing and Urban Development regarding disclosure of lead-based paint (the "Regulations"). Note that "0" bedroom apartments, which covers most studios, need not comply. (See Below) In order to ensure compliance with the Regulations, shareholders are urged to discuss this matter with their attorneys prior to entering into a contract of sale or sublease affecting their apartment. Attached is a brief summary of the Regulations.

**Exhibit A** - Also enclosed is a form entitled "Cooperative Information Regarding Lead-Based Paint in Common Areas" which contains the information available to the Cooperative Corporation regarding the presence of Lead-Based Paint and/or Lead-Based Paint Hazards in your building. If there are any reports or records of lead-based paint, they will be listed on the form and copies enclosed. The Board of Directors requires the following steps:

The following documents must be included in your package as submitted to us as the managing agent. **IF ANY ITEM IS MISSING OR INCOMPLETE, YOUR ENTIRE PACKAGE WILL BE RETURNED TO YOU.**

**1. Exhibit B - Lead Warning Statement and Disclosure of Information - Sellers/Purchasers**

The Lead Warning Statement and Disclosure of Information - This form or one similar to it must be completed with all available information, (including that contained in Exhibit A, if any) initialed and signed by all the seller(s) and prospective purchaser(s) and by any agent (the brokers) hired and paid by the seller to find a purchaser for the apartment. Two copies must be returned with the completed Board application/package.

**2. Exhibit C - Certification of Disclosure** - The top portion of this form must be completed and signed by all the sellers and prospective purchasers. Two copies must be returned with the completed Board application/package.

**For owners of a "0" Bedroom Apartment - Exemption Certificate**

The exemption certificate attached as Exhibit D is for sellers and prospective purchasers who understand and certify that the apartment involved in the transaction is a "0" bedroom apartment in a building built prior to 1978 and is exempt from the Federal Disclosure Regulation regarding lead-based paint and/or lead-based paint hazards. It must be signed and dated by the seller(s) and by the prospective purchaser(s). In this case only, the other documents need not be completed. One original and two copies of this certificate must be returned with the completed application/package.

Also, enclosed is a copy of the pamphlet "Protect Your Family from Lead in Your Home". The reports, if any and the pamphlet must be given to the prospective purchaser(s).

*These items and a \$75 transaction fee payable to the managing agent, must be forwarded to the Transfer Department along with all other materials required as part of the application procedure for the prospective purchaser(s).*

IT IS IMPORTANT THAT YOU CONSULT YOUR ATTORNEY REGARDING THESE MATERIALS. NEITHER DOUGLAS ELLIMAN PROPERTY MANAGEMENT NOR YOUR BOARD OF DIRECTORS MAKE ANY REPRESENTATION THAT THE FOREGOING PROCEDURES WILL ENSURE COMPLIANCE WITH THE REGULATIONS. SHAREHOLDERS ARE ALSO ADVISED THAT THE CORPORATION WILL NOT CONSENT OR CLOSE UNLESS ALL REQUIRED DOCUMENTS ARE PROPERLY EXECUTED AND RETURNED.

ALSO NOTE THE COOPERATIVE'S DISCLOSURE PROVIDED HEREIN CONTAINS ONLY THE KNOWLEDGE THAT THE COOPERATIVE CORPORATION HAS REGARDING LEAD-BASED PAINT IN THE COMMON AREAS. IF YOU HAVE ANY ADDITIONAL KNOWLEDGE, THEN IT IS YOUR RESPONSIBILITY TO INCLUDE IT IN THE DISCLOSURE FORMS.

## **FEDERAL REGULATIONS SUMMARY**

Generally, the Regulations require a seller (i.e., the shareholder selling his shares) or a lessor (i.e., a shareholder subleasing his apartment) (the "Selling Shareholder" or the "Subleasing Shareholder" respectively) to comply with the following activities before a potential purchaser or sublessee is obligated under a contract of sale or sublease:

1. A Selling Shareholder or a Subleasing Shareholder must provide the prospective purchaser or sublessee with an EPA approved lead hazard information pamphlet.

2. A Selling Shareholder or a Subleasing Shareholder must disclose to the prospective purchaser or sublessee, based upon any actual knowledge, if any, the presence of any known lead-based paint in the apartment, as well as provide the purchaser or sublessee with any records or reports available to such shareholder about lead-based paint in the apartment.

3. The Selling Shareholder or Subleasing Shareholder must obtain from the Corporation, and the Corporation must provide to such shareholder, based upon any actual knowledge, if any, the presence of any known lead-based paint in the common areas of the buildings, as well as provide any records or reports available to it about lead-based paint in the common areas. Common areas may include but are not limited to lobbies, hallways, stairwells, laundry and recreational rooms and playgrounds. The Selling Shareholder or Subleasing Shareholder is also obligated to disclose to the prospective purchaser or sublessee any information and reports provided by the Corporation.

4. If the transaction involved an agent (Broker) hired and paid for by the Selling Shareholder/Subleasing Shareholder to find a purchaser or sublessee for the apartment, such Shareholder must disclose to such agent (Broker), based upon actual knowledge, the presence of any known lead-based paint in the apartment or common areas (as the case may be) and the existence of any available records or reports about lead-based paint. In turn, the agent (Broker) is required to inform the shareholder of the disclosure requirements.

5. A Selling Shareholder (but not a Subleasing Shareholder) must permit the purchaser a 10 day period (unless the parties mutually agree, in writing, upon different period of time or to waive such obligation) to conduct a risk assessment or inspection for the presence of lead-based paint.

**THIS IS FOR INFORMATIONAL PURPOSES. ALL APARTMENT OWNERS ARE DIRECTED TO READ THE REGULATIONS AND/OR CONSULT WITH AN ATTORNEY TO FULLY UNDERSTAND THEIR CONTENT.**

**LEAD WARNING STATEMENT - CONTRACTS OF SALE**

Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The seller of any interest in residential real property is required to provide the buyer with information on lead- based paint hazards from risk assessments or inspections in the seller's possession and notify the buyer of any known lead-based hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to purchase.

**DISCLOSURE OF INFORMATION ON LEAD-BASED PAINT AND/OR LEAD-BASED PAINT HAZARDS  
SELLER/PURCHASER**

**Seller's Disclosure**

(a) Presence of lead-based paint and/or lead-based paint hazards (Seller(s) to initial (i) or (ii) below):

(i) \_\_\_\_\_ Known lead-based paint and/or lead-based paint hazards are present in the Unit and/or common areas (explain).

(ii) \_\_\_\_\_ Seller has no knowledge of lead-based paint and/or lead-based paint hazards in the Unit and/or common areas.

(b) Records and reports available to the Seller (Seller(s) to initial (i) or (ii) below):

(i) \_\_\_\_\_ Seller has provided the Purchaser with all available records and reports pertaining to lead-based paint and/or lead-based paint hazards in the Unit and/or common areas (list documents below).

(ii) \_\_\_\_\_ Seller has no records or reports pertaining to lead-based paint and/or lead-based paint hazards in the Unit and/or common areas.

**Purchaser's Acknowledgment** (Purchaser(s) to initial (c) (d) and (e) and check either (i) or (ii) below):

**CERTIFICATION OF DISCLOSURE**

RE: Building Address:

Apartment #:

Tenant-Shareholder/  
Seller:

Prospective Purchaser:

The Residential Lead-Based Paint Hazard Reduction Act of 1992 (the Act) and regulations promulgated by the Department of Housing and Urban Development and Environmental Protection Agency (the Regulations) require that the Tenant-Shareholder as Seller disclose, based upon actual knowledge, to the Prospective Purchaser the presence of any known lead based paint and/or lead based paint hazards in the apartment or common areas. The cooperative corporation must provide any information it has regarding the common areas.

The undersigned, being all the Sellers and Prospective Purchasers of the above referenced apartment hereby certify to the Cooperative Corporation owning the building that:

- (i) They have received the information, if any, in the possession of the Cooperative Corporation regarding lead based paint and/or lead based paint hazards in the common areas.
- (ii) They have complied in all respects with the Regulations.

The Sellers and Prospective Purchasers, each individually, hereby agrees to indemnify and defend the Cooperative Corporation, its directors, officers, employees and agents, (the Indemnified Parties) against any and all claims, losses, liabilities, fines, penalties, damages, costs and expenses (including reasonable attorneys fees) that may at any time be imposed upon the Indemnified Parties for failure to comply with the Regulations. The Prospective Purchasers hereby release the Indemnified Parties from any claims with respect to the existence of lead based paint in the apartment and common areas and any disclosure with respect thereto.
